

# MCLACHLAN HOMES

*Your experience, in your words.*

*Steep Block? Not a problem.*

We've just moved into our magnificent new home and couldn't be happier with the end result. McLachlan from the initial stages of our design ideas, to unlimited revisions, make smart decisions for you on the layout but give you the full freedom to change and design your home as you wish.

Our land didn't come without its challenges for a home builder, with multiple builders unwilling to help due to its known steep slope, to name a few. As the build commenced a few more unknowns appeared about our land and if it wasn't for our supervisor Nick's patience and ongoing communication throughout, it would have been a very different outcome both for the build and our sanity :-)

Nick always responded and provided advise along the way and had no problem helping us make some last minute changes when possible, with Sarah's help with yet more variations :-) Covid has thrown many curve balls at everyone and I feel very lucky we had Nick as our supervisor. I'd definitely chose McLachlan again due to there work quality and there people.

Thanks, Nick, Sarah, Brad and the team!

Ben & Corinne
